Car Seat Check Event

- During drop-off we noticed that many small children were not in car seats.
- For many families this was due to a lack of knowledge about car seat safety or due to not being able to afford the appropriate car seat for their children.
- Service provided through Children's Hospital and Medical Center.
- They use volunteers from many different organizations who are certified as car seat technicians.
- 16 volunteer technicians assisted with car seat fitting.
- 18 volunteers from the National Honors Society at Omaha South High School assisted with Spanish interpreting.
- Lunch was provided to volunteers by Centris Federal Credit Union.
- A total of 25 families were attended.
- 43 car seats were checked.
- 25 car seats were donated to families during the event.
- 5 more were given through regular appointments at Children's.
