Nebraskans Speak About Early Care and Education

Buffett Early Childhood Institute/Gallup Survey on Early Childhood Care and Education in Nebraska
Purpose of Survey

1. Understand Nebraskans’ attitudes, beliefs, and knowledge about early childhood care and education.
2. Inform our investment in early care and education.
3. Gather opinions about the state’s support for young children at greatest risk.
Main Report

Takeaways

1. Early care and education is important to Nebraskans.
2. More affordable and available high-quality child care is needed.
3. Nebraskans believe the state should invest more in early care and education.
4. Nebraskans voice strong support for children in greatest need.
Nebraska Parents Speak About Early Care and Education

Buffett Early Childhood Institute/Gallup Survey on Early Childhood Care and Education in Nebraska
Concern for the Future

37% & 40%

37% of Nebraskans with young children and 40% of Nebraskans with no children believe that children’s lives will get better 10 years from now.
Research Questions

1. What are Nebraska parents’ perspectives about early care and education?

2. What are Nebraska parents’ perceptions about the accessibility and affordability of high-quality early care and education in the state?

3. What are Nebraska parents’ views about investment in early care and education?
Child Care Options

When families cannot care for their child(ren) in their own home during all or part of the day, which of the following care settings do you think is the best option for most families?

• 50% – early care and education center
• 16% – home-based child care setting
• 32% – family member
• 2% – friend or neighbor
Enrollment

NEARLY two-thirds of Nebraskans with young children report that their young child is enrolled in an early care and education center, a home-based care setting, or an elementary school.
Child Care Quality

FEWER THAN HALF

46%

OF NEBRASKANS

are very satisfied or satisfied with the quality of care and education programs where they live.
Child Care Affordability

NEARLY two-thirds OF NEBRASKANS WITH YOUNG CHILDREN say cost is a big or biggest challenge families face in getting high-quality early care and education for their young children.
Support for Programs for 4-year-olds

78% & 72%

of Nebraskans with young children
of Nebraskans with no children

strongly agree or agree that the state should make early care and education programs available for all 4-year-olds whose families choose to use them.
Support for Programs for 3-year-olds

59% & 55% of Nebraskans with young children and of Nebraskans with no children strongly agree or agree that the state should make early care and education programs available for all 3-year olds whose families choose to use them.
Parent Report Takeaways

1. Nebraska parents report a need for early care and education programs.

2. Nebraska parents believe the early care and education their own child receives is good or excellent but are concerned about the cost — as well as the quality of care available to all children in the city or area in which they live.
