Start early. Start well.

### **“We Believe” Statements**

We believe all children need the opportunity to develop, grow, and succeed in life.

We believe the best time to affect a child's future is from birth through age 8.

We believe it is critical to support all aspects of children’s development throughout the first eight years of life.

We believe applying evidence-based practices improves outcomes for all children.

We believe early childhood intervention is a critically important investment for the future.
